POSITION
PREFERRED JOB
STUDIES APPLIED FOR

C# .NET Software Developer

EDUCATION AND TRAINING

2011-now

Faculty of Electrical Engineering, University Sarajevo, Computing and Informatics

This year, in July, I am going to get my Bachelor's degree in Computer Science and Software engineering.

2007-2011

Gymnasium Mostar (high school)

PERSONAL SKILLS

Mother tongue(s)

Bosnian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B1	B2	B2	B2	B2
German	B1	B1	B1	B1	B2

Communication skills

I think I have gained very good communication skills through my work in organisations. In high school, I was a part of the Y-Peer organisation for three years and I worked as a certificated peer-educator. Through that experience I also gained good presentation skills. I am very good in communication with people, and I am a very open person. Now, I am a member of EESTEC LC Sarajevo, Electrical Engineering Students' European Association, and was a organizer in two big projects. I was a PR organizer for JobFair'2013. The last project of EESTEC LC Sarajevo was EESTEC Startup Lab, and I was part of the head organising team as PR team leader. My job was exactly communication with people and promotion of the event.

Organisational / managerial skills

- leadership (a two months ago, I was responsible for a team of 15 people as a PR team leader for EESTEC Startup Lab)
- CERTIFICATED ,peer-educator in Y-PEER UNFPA
- PR member at EESTEC LC Sarajevo

Job-related skills

- I think I am a very good team player, opened for new things, ready to learn new technologies and I have knowledge and experience with C# and .NET framework

Computer skills

Programming languages:

- C#
- C++
- C
- Java

I have experience in .NET framework, Visual Studio, because most of my project I created in it. I have experience with relational database design and development. I worked with MySQL, Oracle database systems. I also have some experience in web application development and using patterns such as MVC.

ADDITIONAL INFORMATION

Projects

- *Development of an application for microcontroller Arduino*
- *Development of an application for microcontroller Arduino for Smart Cards and integration with a WPF application –Information system for students-project for my Object Oriented Analysis and Design*
- *Development of an Oracle database*
- *Windows Forms Application for a Bus Station , Visual Studio*
- *Graphical modeling, Blender*
- *For my bachelor thesis ,now I am working on a MVC application for demonstration of Useability testing, Visual Studio 2012.*
- *For my subject Software engineering I am working in a team of seven people on a development of an desktop application for a hotel in Eclipse, Java*

ANNEXES

- Y-PEER certificate
- JobFAIR certificate
- British Council participation in the first
